

## THE PROPOSED PLAN OF ALLOCATION – GENERAL PROVISIONS

The Starr Defendants have paid \$115 million in cash (the “Settlement Amount”) into an escrow account that has been earning interest for the benefit of the Settlement Class. After approval of the Settlement by the Court and upon satisfaction of the other conditions to the Settlement, the Distribution Amount (the Settlement Amount less any Tax Expenses, court-awarded attorneys’ fees and expenses, Notice and Administrative Expenses, and any other expenses and awards the Court may order), will be distributed to Settlement Class Members who timely submit either valid Proofs of Claim or Release Forms (as the case may be) establishing “Recognized Losses” according to the Plan of Allocation described below.

To the extent there are sufficient funds in the Distribution Amount, each Authorized Claimant will receive an amount equal to the Authorized Claimant’s allowable Recognized Loss, as defined below. If, however, the Distribution Amount is not sufficient to permit payment of the total of all Recognized Losses, then each Authorized Claimant will be paid the percentage of the Distribution Amount that each Authorized Claimant’s claim bears to the total of the claims of all Authorized Claimants (“*pro rata* share”) that purchased or acquired either debt or equity securities, including options. You will be eligible to participate in the distribution only to the extent you have a net loss on your transactions in AIG debt securities, or on your combined transactions in AIG common stock and options. Payment in this manner will be deemed conclusive against all Authorized Claimants.

For all purposes, the transaction date and not the settlement date shall be used as the date for determining inflation per share and eligibility to file a claim. All purchases and sales of AIG Securities shall be accounted for and matched using the first-in-first-out (FIFO) method of accounting. Gifts and transfers of securities are not eligible purchases. The covering purchase of a “short” sale is not an eligible purchase.

The Plan of Allocation is not intended to estimate the amount a Settlement Class Member might have been able to recover after a trial, nor is it intended to estimate the amount that will be paid to Authorized Claimants. The Plan of Allocation is the basis upon which the Distribution Amount will be proportionately divided among all the Authorized Claimants. The Court will be asked to approve the Administrator’s determinations before the Distribution Amount is distributed to Authorized Claimants. No distributions to Authorized Claimants who would receive less than \$10.00 will be made, given the administrative expenses of processing and mailing such checks.

There will be no distribution of the Distribution Amount until a Plan of Allocation is finally approved and affirmed on appeal (if an appeal is filed) and the time for any petition for rehearing, appeal or review, whether by *certiorari* or otherwise, has expired. This Plan of Allocation may be modified by the Court without further notice to the Settlement Class. The Released Persons have no liability, obligation or responsibility for the administration of the Settlement or disbursement of the Distribution Amount.

Each person wishing to participate in the distribution must timely submit a valid claim form and all required documentation or Release Form (as the case may be) **no later than June 4, 2012**, to the address listed below and set forth in the Proof of Claim form or Release Form. The Proof of Claim form and Release Form include a general release of each of the Released Defendant Parties. See the section called “How do I participate in the Settlement? What do I need to do?” below.

The Court has reserved jurisdiction to allow, disallow or adjust on equitable grounds the claim of any Settlement Class Member. The Court also reserves the right to modify the Plan of Allocation without further notice to Settlement Class Members. Payment pursuant to the Plan of Allocation approved by the Court shall be conclusive against all Authorized Claimants. No person shall have any claim against Lead Plaintiff, their counsel, the Administrator, or other agents designated by counsel based on distributions made substantially in accordance with the Agreement and the Settlement contained therein, the Plan of Allocation, or further orders of the Court.

## THE PROPOSED PLAN OF ALLOCATION - CALCULATION OF RECOGNIZED LOSS AMOUNT<sup>1</sup>

### Calculation of Recognized Loss for AIG Common Stock Purchases

A. For shares purchased on or between October 28, 1999 through April 1, 2005, the following Recognized Losses shall be allowed, subject to the limitations set forth in Section B:

1. For each share that was (a) sold on or between October 28, 1999 and October 13, 2004, (b) purchased on or after October 15, 2004 and sold on or before March 16, 2005, or (c) purchased on or after March 17, 2005, and sold on or before March 29, 2005, the Recognized Loss shall be 10% of the difference between the inflation per share at the time of purchase, for the applicable date of purchase, less the inflation per share at the time of sale, subject to a limit of \$0.20 per share. Inflation per share shall be determined at each transaction date based on the percentage inflation applicable to that date as set forth in Table 1 times the price paid or received, excluding any commission, fees or other adjustments;

2. For each share not covered by 1 above and sold on or before April 1, 2005, the Recognized Loss shall be the inflation per share at the time of purchase, for the applicable date of purchase, less the inflation per share at the time of sale. Inflation per share shall be determined at each transaction date based on the percentage inflation applicable to that date as set forth in Table 1 times the price paid or received, excluding any commission, fees or other adjustments; and

3. For each share not covered by 1 above and sold after April 1, 2005, the Recognized Loss shall be the inflation per share at the time of purchase. Inflation per share shall be determined at each purchase transaction date based on price paid or received, excluding any commission, fees or other adjustments.

B. The following limitations on a Recognized Loss shall be applied:

1. In addition to the annexed Table 1 relating to Section 10(b) AIG common stock claims, the Recognized Loss for such shares purchased during the Class Period shall be limited (as provided for under Private Securities Litigation Reform Act of 1995 "PSLRA") to the smallest of the following: (i) the difference between the price paid and the price received (out-of-pocket investment loss) if sold on or before April 1, 2005; (ii) the difference between the price paid (excluding all fees and commissions) and the average closing price as set forth in Table 2 below, if sold between April 4, 2005 and June 29, 2005; or (iii) the difference between the price per share paid and \$53.70 per share if the shares were held on the close of business on June 29, 2005.

2. You will be eligible for a recovery under the Plan only to the extent you have a net loss on your combined transactions in AIG common stock and options.

**Table 1: Inflation per Share Percentage and Averages Over Identified Time Periods**

Period	Start Date	End Date	Inflation Percentage	Avg. Price	Avg. Value	Avg. Inflation
1	28-Oct-99	7-Feb-01	13.9%	\$80.21	\$69.07	\$11.14
2	8-Feb-01	1-Apr-01	16.1%	\$81.28	\$68.19	\$13.09
3	2-Apr-01	25-Apr-01	18.2%	\$78.39	\$64.11	\$14.28
4	26-Apr-01	13-Oct-04	21.2%	\$67.81	\$53.43	\$14.37
5	14-Oct-04	14-Oct-04	14.2%	\$60.00	\$51.50	\$8.50
6	15-Oct-04	16-Mar-05	11.2%	\$64.84	\$57.59	\$7.25
7	17-Mar-05	29-Mar-05	8.5%	\$57.77	\$52.86	\$4.91

5/13/2005	\$52.05	\$52.32	6/28/2005	\$55.17	\$53.63
			6/29/2005	\$58.48	\$53.70

**Calculation of Recognized Loss for AIG Call and Put Options**

The AIG Options entitled to recover shall include all purchased AIG Call Options (excluding AIG Call Options purchased to cover or offset a previously sold, or written AIG Call Option) and all initially sold, or written, AIG Put Options (excluding those AIG Put Options sold, or written, to cover or otherwise offset a previously purchased AIG Put Option) during the period from October 28, 1999 through April 1, 2005.

Artificial inflation and Recognized Losses as to AIG Call Options and artificial deflation and Recognized Losses as to AIG Put Options will be computed based on the artificial inflation in AIG's common stock as described above. To determine artificial inflation for AIG Call Options and artificial deflation for AIG Put Options, Lead

Plaintiff's damages consultant considered these securities' price changes that occurred in reaction to certain public announcements regarding AIG and then made adjustments for changes that were attributable to market forces unrelated to the alleged fraud in prices of such call and put options. Lead Plaintiff's damages consultant then developed formulas (see below) from which the Recognized Losses for AIG Call and Put Options may be calculated.

You will be eligible for a recovery under the Plan only to the extent you have a net loss on your combined transactions in AIG common stock and options.

### **AIG Call Options**

With respect to purchases and sales (covers) of AIG Call Options during the period from October 28, 1999 through April 1, 2005, the artificial inflation per Option on a given day shall be the dollar reduction in the value of the AIG Call Option with the same exercise (or strike price) and same date of expiration on that day as a result of the inflation in AIG's common share price at the close of trading. The dollar reduction in the value of Call Options will be calculated using the Black-Scholes call option pricing formula (using the implied volatility for an at-the-money call option, annual dividend yield, and the appropriate annual interest rate on that day as set forth in Table 3 below) and the closing share price of AIG common stock on the transaction date ("AIG Price" as set forth in Table 3) compared with the Black-Scholes call option pricing formula value for the Call Option using the uninflated share closing share price of AIG common stock ("AIG True Value" as set forth in Table 3) on that same date.

A. For such Call Options which (1) expired, were exercised or were sold (or the position was otherwise closed out) prior to October 14, 2004, (2) were purchased on or after October 15, 2004 and expired, were exercised or were sold (or the position was otherwise closed out) sold on or before March 16, 2005, or (3) were purchased on or after March 17, 2005, and expired, were exercised or were sold (or the position was otherwise closed out) on or before March 29, 2005, the Recognized Loss shall be 10% times that number of options multiplied by the lesser of:

1. the difference between artificial inflation per Call Option on the date of purchase and artificial inflation per Call Option on the date of expiration, exercise, or sale, as appropriate; or
2. the difference between the purchase price per option and the sale price or value realized upon exercise or expiration per option (\$0.00 if the call option expired worthless).

B. For such Call Options not covered by A above which (1) expired after October 13, 2004 and on or before April 1, 2005; (2) were exercised for cash (or the shares immediately sold) on or between October 14, 2004 and April 1, 2005; or (3) were sold (position closed out) on or between October 14, 2004 and April 1, 2005, the Recognized Loss shall be that number of options multiplied by the lesser of:

1. the difference between artificial inflation per Call Option on the date of purchase and artificial inflation per Call Option on the date of expiration, exercise, or sale, as appropriate; or
2. the difference between the purchase price per option and the sale price or value realized upon exercise or expiration per option (\$0.00 if the call option expired worthless).

C. For such Call Options not covered by A above which (1) expired worthless after October 14, 2004 or (2) were retained at the end of trading on April 1, 2005, the Recognized Loss shall be that number of options multiplied by the lesser of:

1. the artificial inflation per Call Option on the date of purchase; or
2. the difference between the purchase price per option and the sale or realized proceeds price per option (\$0.00 if the call option expired worthless).

### **AIG Put Options**

With respect to AIG Put Options written or purchased (covered) during the period from October 28, 1999 through April 1, 2005, the artificial deflation per AIG Put Option on a given day shall be the dollar decrease in the value of an AIG Put Option with the same exercise price and expiration date as the subject option at the close of trading on that day as a result of the inflation in AIG's common share price. The dollar decrease (artificial deflation) in the value of the Put Option will be calculated using the Black-Scholes put option pricing formula (using the implied volatility for an at-the-money put option, annual dividend yield, and annual interest rate on that day set forth in Table 3 below) and the closing share price of AIG common stock on the transaction date ("AIG Price" as set forth in Table 3) compared with the Black-Scholes pricing formula value for the Put Option using the uninflated share closing share price of AIG common stock ("AIG True Value" as set forth in Table 3) on that same date.

A. For such Put Options which (1) expired, were exercised or were purchased/covered (position closed out) prior to October 14, 2004, (2) were written on or after October 15, 2004 and expired, were exercised or were purchased/covered (position closed out) on or before March 16, 2005, or (3) were written on or after March 17, 2005, and expired, were exercised or were purchased/covered (position closed out) on or before March 29, 2005, the Recognized Loss shall be 10% times that number of options multiplied by the lesser of:

1. the difference between artificial deflation per Put Option on the date the option was written and artificial deflation per Put Option on the date of expiration, exercise, or purchase, as appropriate; or
2. the difference between the purchase price, exercise price, or expiration price per option paid (\$0.00 if the put option expired worthless) and the written price per option received.

B. For such initially written (sold) Put Options not covered by A above which (1) expired after October 13, 2004 and on or before April 1, 2005; (2) were exercised on or between October 14, 2004 and April 4, 2005; or (3) were purchased/covered (position closed out) on or between October 14, 2004 and April 1, 2005, the Recognized Loss shall be that number of options multiplied by the lesser of:

1. the difference between artificial deflation per Put Option on the date the option was written and artificial deflation per Put Option on the date of expiration, exercise, or purchase, as appropriate; or
2. the difference between the purchase price, exercise price, or expiration price per option paid (\$0.00 if the put option expired worthless) and the written price per option received.

C. For such initially written (sold) Put Options not covered by A above which were retained at the end of trading on April 1, 2005, the Recognized Loss shall be that number of options multiplied by the lesser of:

1. the artificial deflation per Put Option on the date the put option was written; or
2. the difference between the purchase price, exercise price, or expiration price per option paid (\$0.00 if the put option expired worthless) and the written price per option received, if purchased (covered), expired, or exercised on or before June 29, 2005.

#### **Calculation of Recognized Loss for AIG Debt Securities Purchases**

The Class Period for purchases of AIG debt securities is from October 28, 1999 through April 1, 2005. AIG debt securities that have matured, were called, put or converted were not damaged by the alleged fraud and, therefore, shall not be eligible for recovery under the Plan and all transactions in such securities shall be ignored. The AIG debt securities outstanding as of October 13, 2004 and eligible to participate in recovery under the Plan are listed in Table 4 below. You will be eligible for recovery under the Plan only to the extent you have a net loss on your transactions in AIG debt securities.

The "AIG Debt Settlement Fund" shall be created by apportioning up to 5% of the Distribution Amount. If the Total Recognized Losses for AIG debt securities eligible to participate under the Plan are equal to or less than the AIG Debt Settlement Fund, then such Total Recognized Losses shall be recoverable and the remaining portion, if any, of the AIG Debt Settlement Fund shall revert back to the Distribution Amount for recovery under the AIG Common Stock and AIG Call and Put Options provisions of this Plan. If the Total Recognized Losses for AIG debt securities eligible to participate under the Plan are more than the AIG Debt Settlement Fund, such Total Recognized Losses shall be paid *pro rata*.

#### **Calculation of Recognized Loss for AIG Debt Securities shall be as follows:**

For AIG debt securities purchased on or between October 28, 1999 and April 1, 2005, the following Recognized Losses shall be allowed:
